Honorable Mayor and Members of the Town Council

Subject: 2008-09 Draft Annual Operating Budget

The 2008-09 Draft Annual Operating Budget is attached for Council review. This budget, although balanced in the current year and over the 5 year forecast, clearly reflects the fiscal constraints being created by the current downturn in the economy. This downturn was anticipated and the Town was relatively well positioned to address it.

This budget contains no new staff positions and continues to minimize the growth in expenditures associated with new programs that add on-going expenses. However, this budget provides significant resources to respond to Council defined priorities and allocates necessary resources to the new Corporation Yard.

Based upon our conservative philosophy of budgeting for the worst case on expenditures and conservatively on revenues, approximately \$2.5 million in one time money has been identified at the end of this FY 07-08 which staff recommends be applied to the Corporation Yard Capital fund. This will increase the total funds dedicated to the project at \$12.5 million.

Key Assumptions: This budget was constructed based upon the following key assumptions:

Property Tax Revenue Growth: While property taxes have grown at above 10% per year for the last several year's (including last year at 11.8%), this budget assumes 6.5% growth over the current years estimated actual for FY 08/09 and 5%, 5%, 6% and 6% for the next 4 years. Since this is by far and away the Town's largest source of revenue, it is critical that the projections are accurate and conservative. An upswing in construction and real estate sales within the 5 year forecast will likely increase the growth rate of property tax.

Sales Tax Growth: This budget assumes a slight decline under the current year's estimated actual (.71%) in sales tax revenue for FY 08/09. This is due to the economy, particularly the significant slow down in construction activity as in a typical year, nearly 30% of the sales tax revenue is generated from construction related sales. Little if any growth in sales tax is projected in the 5 year forecast.

Labor Costs: Labor costs are projected to increase 8.5% for FY 08/09 and then reduce to 6% for the remaining 4 years. This percentage reflects merit increases granted within the salary ranges established for all positions and cost of living increases from year to year. This is a place holder and the actual cost will be based upon the labor agreements in process now.

Miscellaneous Assumptions: The following assumptions are incorporated in to the 5 year forecast- Measure A is extended, fuel price increase of 5% per year and services and supplies increase of 2% per year.

Budget Organization

The most significant modification to the budget document is the incorporation of the 5 Year Capital Improvement Budget into the operating budget. Within the CIP portion of the budget, the 07/08 budget numbers include the original budget and all Council approved budget amendments.

Staffing

This budget recommends no new positions. There are some minor changes recommended:

Senior Street Maintenance Worker Position- this position is recommended for an increase in grade order from 8 to 9 to reflect the organizational need for these positions to take on greater supervisory duties, including the preparation of employee evaluations and dealing with discipline issues. This reduces the number of direct reports to the Street Maintenance Supervisor which will allow him to provide more focus on overall street maintenance and snow removal operations. This modification to the organizational structure has become more important with the reduction in snow removal contracts and the addition of personnel to handle the additional Town plowed routes. The immediate cost of this upgrade is nominal and the long term cost is approximately \$20,000 (total for the three positions) annually.

Accounting Technician Upgrades- in the Administrative Services Department two position upgrades are proposed. The existing Office Assistant is recommended to be upgraded to an Accounting Technician (grade 4 to grade 6) and the existing Accounting Technician I to an Accounting Technician II (grade 6 to grade 7). The immediate cost of this upgrade is nominal and the long term cost is approximately \$24,000 annually. These modifications are recommended to address the increasingly complex work being handled by the Administrative Services Department.

Some additional part time assistance was added to the Facilities, Police and Administrative Services Department (IT) to address growing workload. The total cost of the additional part time staffing is \$24,000. A small portion of this increase was off-set by a reduction in Facilities overtime. In addition, the Police Budget picks up ½ of the cost of the additional traffic officer that is partially funded by a grant from the Office of Traffic Safety.

Finally, this budget assumes a change to the status of the Town Attorney occurring late in the fiscal year. This includes recruiting costs incorporated into the Town Council budget and increased personnel costs for the last two months of FY 08/09. These numbers are flexible because at this point it has not been determined whether or not the Town will fill the Town Attorney position with a Town employee or a contract legal firm.

Overall, this budget includes a 4.34% increase in personnel costs from the FY 07/08 budget. This percentage is relatively low and compares to a 13% budgeted increase last year.

Corporation Yard

This budget continues the major economic commitment to the construction of a new Corporation Yard for the Town which will include facilities for Public Works, Animal Services, Police Department and Facilities Maintenance. The reserve fund for this facility is increased \$2.5 million to \$12.5 million with major borrowing (for construction) planned for FY 09-10. With a total projected cost of at least \$30 million, construction of the facility continues to appear feasible.

Reserves

This budget adjusts existing reserve funds to reflect targets established by Council policy. We continue to contribute funding to the paving and overlay reserve, although we are not yet able to fully fund it. This year our commitment to slurry and overlay work and the overlay reserve is just under \$1.9 million. We have also set aside a \$750,000 reserve to fund the expected State diversion of local funds which will likely occur as part of next years State budget process. Under current law, the State must pay the funds back, but the timing of the payback is uncertain.

Continued Downtown Parking Support

The parking fund was created three years ago with the intent of self funding based upon meter revenue. Total expenditures continue to outstrip revenues. This year an additional \$141,626 loan is projected to be necessary to “float” the District. Subsidy of this program will continue into the future until the district is expanded (particularly into areas that do not increase costs) so that revenues grow to cover expenses or some other mechanism to significantly increase revenues is implemented. There is a significant redevelopment capital project (Page 12-58) that may reduce the on-going General Fund subsidy of parking.

Building Enterprise Fund

The Building and Safety enterprise fund is operating at a substantial loss and an additional loan from the General Fund is programmed this year. Through aggressive cost cutting measures, the amount of the “loan” was significantly less than projected. A continued “loan” is projected this year, although at a lower level. Staff plans a thorough review of activity levels at the end of summer 2008, depending on activity levels, additional cost cutting measures may be necessary. In addition, an annual fee update to reflect actual costs will be considered at that time.

Operations

This budget is targeted to address the top priorities of the Council while sustaining on-going operations. This includes a continued high level of development review as developers continue to seek entitlements even though construction activity is flat. Advance planning efforts include completing the development code update and initiating the Downtown Specific Plan update.

Continued focus will be applied to redevelopment and economic development efforts particularly downtown (railyard, downtown core, river corridor, historic preservation), circulation improvements (vehicular and non-vehicular), workforce housing, Trout Creek restoration and other water quality improvements.

The imposition of the National Pollutant Discharge Elimination System (NPDES) requirements imposed by the Regional Water Quality Control Board has impacted the Town Engineering Staff and less significantly, other departments. A yet undefined water quality monitoring requirement will create additional impacts on Town resources. Major capitol projects supported by the Engineering Division include the Mousehole, Donner Pass Road bike lanes, the Truckee River Legacy Trail and a variety of roundabouts and other traffic enhancement projects.

The most significant change in the Public Works budget is shifting additional costs to road maintenance and away from snow removal. This change reflects the tracking of actual costs over the last few years.

Police calls for service are relatively consistent however the detective workload continues to grow. The reorganization to add a detective sergeant last year is just now being implemented.

An inflationary increase in the Wildland Fire Contract costs (\$35,000) is incorporated into this year's budget. The total contract amount will be \$222,827 for FY 08/09. No relief from this fee appears on the horizon.

Green Initiatives

Staff support is retained for the efforts of the Green Building Committee. Funding is also proposed to continue to "green" Town Facilities, including Town Hall. This year's budget includes \$100,000 to install solar panels on Town Hall. It is hoped that this amount can be leveraged with grant funding to install a significant solar array on Town Hall that will provide a major portion of our power needs.

Capital Projects

The following descriptions focus on major projects with planned activity in FY 08/09. Projects with later start dates will be discussed at the budget workshop. From staff's perspective this is a very ambitious work program, particularly in the engineering and redevelopment areas.

Engineering - Projects planned for FY 08/09 within the Engineering Division include a short term repair of failing paving on West River Street, a significant road slurry seal project, design work on downtown streetscapes including Brickelltown, Church Street and DPR and construction work on the DPR (Donner Lake) bike lane and water quality project . The new corporation yard will continue to progress, including the completion of design and the initiation of earth movement. It is anticipated that the 89N/Alder Drive Roundabout will be completed and the DPR/Pioneer Trail Roundabout initiated in FY08/09. Design work will continue on the Mousehole project. Paving is planned for Phase 2 of the Truckee River Legacy Trail along with continued design and environmental work of Phase 3. Water quality related efforts include implementation of the Storm Water Management Plan (\$120,000/year), Trout Creek Restoration and unfunded water quality monitoring project and the Donner Pass Road project.

Facilities - Projects for FY 08/09 include significant upgrades and maintenance on the depot including a new roof and accessibility upgrades, a new roof on the Tahoe Donner Shop, maintenance and the installation of a solar power system at Town Hall and the construction of two (2) new bus shelters.

Advance Planning - Projects for FY 08/09 include completion of the Development Code Update, initiation of the Downtown Specific Plan Update and completion of the mandatory update to the General Plan Housing Element.

Redevelopment Projects - The number of redevelopment capital projects has increased dramatically. They include downtown streetscape design as referenced above, a proposed

acquisition of downtown parking lot leases and additional parking lot improvements, a streetscape improvement loan program, historical preservation incentives and continued housing support programs. Miscellaneous projects include the Trout Creek pocket park, interim Brickelltown sidewalk improvements and the Downtown News rack replacement project.

Conclusions

This budget is balanced and the Town remains financially strong. However, the five year forecast indicates that we do not have much room to add new programs or staffing. Should the economic picture improve, more flexibility will exist. Comparing Truckee's situation to many cities and counties in California, we are much better situated to respond to changing economic circumstances while continuing to provide quality public services.

Respectfully submitted,

Tony Lashbrook

2008/09 GENERAL FUND RESERVE AND DESIGNATION SUMMARY TOWN OF TRUCKEE

General Fund Contingency Designation

Recommended policy is 16.7% of operating revenues to provide for working capital and potential emergencies.

State Budget Contingency Designation

Provides for anticipated settlement with the State of California in which the Town forfeits a portion of General Fund revenues in exchange for legislative protection which would preclude the State from taking away Town revenue in the future.

Self Insured Retention Reserve

Required by PARSAC, the Town's insurance pool, to provide for the Town's self insured retention for liability insurance.

Undesignated Litigation Designation

Provides for potential legal costs associated with defending the Town against litigation.

Equipment Replacement Designation

Provides for the replacement of heavy equipment used for road maintenance. These funds will be used during those years identified in the Town's Twenty Year Equipment Replacement Plan to have higher than normal replacement costs. As of FY07/08, the balance was transferred to the Fleet Replacement Internal Service Fund.

Facility Construction Designation

Provides for future Town facilities needs such as the relocation of the Town Corporate Yard, construction of a new animal control kennel, etc.

Historic District Incentive Designation

Provides for incentives to preserve the downtown historic district.

Affordable Housing Fund Designation

Provides potential funding for affordable housing projects and / or studies.

<u>TAXES</u>	<u>BUDGET</u>
4011 <u>PROPERTY TAXES - SECURED</u> - Taxes collected by the County for secured property with a portion allocated to the Town . The projection is based upon a 7% estimate of growth from the estimated actual for 07/08 that includes both new construction and resale activity (Supplemental).	\$ 8,941,198
4020 <u>PROPERTY TAXES - UNSECURED</u> - Taxes collected by the County for unsecured personal property (i.e., boats, etc.) with a portion allocated to the Town.	\$ 164,000
4030 <u>PROPERTY TAXES - SUPPLEMENTAL</u> - Taxes collected by the County for additional taxes for the first year a property is owned.	\$ 340,000
4110 <u>SALES TAX</u> - 1% of the State Sales Tax levy collected from merchants on retail sales and taxable services transacted within the Town and remitted to the Town by the State Board of Equalization. The projection for FY08/09 is based upon a decline of 0.55% due to a slowing economy, specifically in the building industry.	\$ 2,611,719
4115 <u>PROPERTY TAX IN-LIEU SALES TAXES</u> - These funds are intended to partially offset reductions in the 1% Sales Tax revenue allocation to cities and counties as a result of the State Legislature amendments known as the "Triple Flip."	\$ 803,943
4130 <u>TRANSIENT OCCUPANCY TAX</u> - 10% tax on temporary occupancy (30 days or less) of hotel, motel and other similar facilities by temporary residents or visitors.	\$ 1,200,000
4150 <u>FRANCHISE TAX</u> - This account provides for amounts received for special privileges granted by the Town in permitting the continuing use of public property for such activities as poles and lines for public utility use including cable television (\$180,000). Currently the PUD, disposal company and telephone company pay no franchise fees to the Town. Sierra Pacific Power Co. currently pays a 2% franchise fee, and the Town's portion of this fee is \$10,000. A franchise agreement has been developed with Southwest Gas and revenues of \$300,000 have been included. With the Town's assumption of the Solid Waste Franchise Agreement, revenues of \$140,000 have been included for this fiscal year.	\$ 931,500
4170 <u>REAL PROPERTY TRANSFER TAX</u> - This tax is imposed on the transfer of real property. Counties are authorized to levy the tax at a rate of \$1.10 per \$1,000 of the sale value. The Town is then authorized to levy a tax at one-half the County rate.	\$ 150,000
 <u>INTERGOVERNMENTAL REVENUE</u>	 <u>BUDGET</u>
4510 <u>MOTOR VEHICLE IN-LIEU TAX</u> - This account represents motor vehicle license fees imposed annually by the State in lieu of taxes on motor vehicles; paid directly from State. Revenues derived from the motor vehicle license fees are distributed based on the proportion that the population of each city bears to the total population of all cities.	\$ 80,000
4511 <u>PROPERTY TAX - IN-LIEU MOTOR VEHICLE TAX</u> - These funds are intended to partially offset reductions in the Motor Vehicle In-Lieu revenue allocation to cities and counties as a result of the State Legislature amendments known as the "Triple Flip."	\$ 1,100,000

TOWN ATTORNEY**

ACTIVITY DESCRIPTION

The function of the Town Attorney is to serve as legal counsel to the Town in its day-to-day operations and to serve as legal advisor to the Council, Planning Commission, Town Manager and operating Departments. The Town Attorney is also charged with general knowledge of legal issues arising from court decisions and awareness of the need for specialized attorneys and the supervision of those attorneys in the handling of Town litigation. The Town Attorney is also charged with the preparation and review of ordinances, resolutions and other legislation.

Activities for 2008/09 include assisting the Council and staff in crafting proposed public policies and local ordinances. The Attorney will also assist the Town in administering any specialty legal counsel services that may be needed.

The Town will also be in the process of recruiting for a new Town Attorney upon the retirement of the current Town Attorney during FY08/09. It is estimated that a current market-rate contract with a new Town Attorney will cost the Town \$30,000 (including taxes and benefits) in addition to the current Town Attorney's rate.

2008/09 ANNUAL BUDGET DETAIL
ADMINISTRATIVE SERVICES**

ACTIVITY DESCRIPTION

The Administrative Services Department is responsible for providing general administrative support in the areas of Finance, Human Resources, Risk Management, Purchasing and Information Technology to the Town Council, Town Manager and Town Departments. This includes processing and recording of all financial transactions such as accounts payable, revenue receipts, payroll and summarizing financial transactions in a format that allows management and Council to review fiscal performance and related departmental budget conformance. The Department establishes internal accounting controls and aids the Council in contracting for external audits. The Administrative Services Department works with the Town Manager to develop both proposed and final budgets.

Goals for the 2008/09 fiscal year include preparation of the Annual Financial Report in-house; implement Accounting Project Module to allow for tracking of staff resources; and continue to implement the Information Technology Business Continuity study recommendations. In 2008/09, complete remote secondary site (see CIP 60-01-05) and enhance financial, risk management and personnel systems.

In FY 2008/2009, also adjust the Accounting Technician job classification to a series including Accounting Technician I (grade 6) and Accounting Technician II (grade 7). This adjustment will have no immediate financial impact, however it will recognize the complexity and variety of responsibilities currently held by the incumbents.

TOWN OF TRUCKEE
2008/09 ANNUAL BUDGET DETAIL
PUBLIC WORKS - MAINTENANCE

ACTIVITY DESCRIPTION

The Public Works Maintenance Department is responsible for keeping the Town's infrastructure safe for the traveling public. The department maintains the asphalt roadways by patching the streets. It is also charged with street sweeping, striping of parking stalls and crosswalks, stenciling of streets, and sign maintenance. Of the 141 centerline miles, the Town has over 283 ditch miles to maintain. These duties include culvert cleaning, brushing of roadside shrubs and trees, and reestablishing drainage ditches on a continuing basis. Major construction work is done by private contract, but department employees may be charged with inspection of these projects. The Maintenance budget includes all expenditures in the Public Works Department, except for those supplies and services directly related to snow removal and fleet maintenance.

The 2008/09 budget has been structured under the assumption that new sources of maintenance funds will not be forthcoming in this fiscal year. The Five-Year Capital Improvement Plan has been approved by Council for the purchase of additional equipment and the replacement of existing equipment. Based on the last six years, wages for full-time employees will be distributed to reflect 60% to Maintenance and 40% to Snow. This is a change from a 50/50 split in prior years. Certain items charged under capital accounts 8005, 8030 and 8035 have been charged under Supplies & Services as their cost falls below \$1,000.00.

In FY 2008/2009, also adjust the Senior Maintenance Worker job classification, currently grade 8, to grade 9. This adjustment will have no immediate financial impact, however it will recognize additional supervisory requirements not previously performed by the incumbents.

2008/09 ANNUAL BUDGET DETAIL
PUBLIC WORKS - SNOW**

ACTIVITY DESCRIPTION

Town crews perform snow removal operations during storm periods and clean-up operations of roads and facilities on an ongoing basis during the entire winter season. Sand and de-icing materials are also applied to streets during storm or icy conditions to increase traffic safety. Street sweeping is performed as often as weather permits during the winter months both for dust control purposes and to reduce drain clean-up during the summer season.

The 2008/09 budget has been structured under the assumption that new sources of maintenance funds will not be forthcoming in this fiscal year. The Five-Year Capital Improvement Plan has been approved by Council for the purchase of additional equipment and the replacement of existing equipment. Based on the last six years, wages for full-time employees will be distributed reflect 60% to Maintenance and 40% to Snow. This is a change from a 50/50 split from prior years. Certain items charged under capital accounts 8005, 8030 and 8035 have been charged under Supplies & Services, as their cost falls below \$1,000.00. A recommended upgrade of the Senior Maintenance Worker job code to grade 9 is anticipated based on changes in supervisor responsibilities.

In FY 2008/2009, also adjust the Senior Maintenance Worker job classification, currently grade 8, to grade 9. This adjustment will have no immediate financial impact, however it will recognize additional supervisory requirements not previously performed by the incumbents.

PERSONNEL**BUDGET**

<u>5011</u>	<u>WAGES - REGULAR FULL-TIME</u> - Provides for Public Works Director/Town Engineer (20%), one (1) Street Maintenance Supervisor (40%), thirteen (13) Maintenance Worker II's, three (3) Senior Maintenance Workers; and an Administrative Secretary (40%). All full-time employees budgeted in this account are for 40% of the year, unless otherwise noted. During the balance of the year, wages for the permanent personnel are budgeted in the Maintenance budget. (New percentages for 08/09)	\$	448,878

ACTIVITY DESCRIPTION

The Facilities Management Department oversees the operations of Town Hall, as well as other properties owned or operated by the Town. Properties maintained include Town Hall, the Riverview Corporation Yard, the Intermodal Depot, the Tahoe Donner Shop, the Animal Shelter and other properties that currently have no structures, such as the Western Undercrossing and the McIver Dairy Site.

Goals and objectives for this year include operations and maintenance of Town Hall, Depot and other Town properties and maintenance projects to enhance the appearance of the Train Depot.

The addition of a part-time Facilities Maintenance Worker provides additional resources for ongoing maintenance needs of Town facilities. The Facilities overtime budget has been decreased by \$2,500 to offset a portion of the increased cost for this position.

COMMUNITY DEVELOPMENT DEPARTMENT - PLANNING**

ACTIVITY DESCRIPTION

CDD Planning is responsible for advance planning, development review, public information and development code compliance. The activity is part of the Community Development Department and is managed by the Director, Town Planner, and Senior Planner. It provides staff support to the Town Council (elected representatives) and the Planning Commission (appointed citizen planners). The Town Council provides overall policy direction, adopts ordinances and regulations and acts as the hearing body for appeals of Planning Commission and staff decisions. The Council also prioritizes projects, thereby setting policy direction for the use of the department's time and resources. The Planning Commission provides policy recommendations to the Town Council and functions as a hearing body for larger projects within the Town.

Planning activity is primarily devoted to development applications and administration of ongoing programs. This includes processing of land use/zoning applications, review of building plans, inspections of development projects, public assistance, woodstove rebates, and the woodstove removal program. The staff also supports the redevelopment efforts in regards to affordable housing.

The Planning Division will also administer substantial professional service contracts, likely exceeding \$400,000 for special studies such as traffic analyses and environmental impact reports. Since these are "pass through" funds (i.e., the contracts are paid by fees from by the applicant), they are not reflected in the budget, but demonstrate the additional activities undertaken by planning staff for land use permitting activity.

TOWN OF TRUCKEE
2008/09 ANNUAL BUDGET DETAIL
COMMUNITY DEVELOPMENT DEPARTMENT - BUILDING and SAFETY

ACTIVITY DESCRIPTION

The Building and Safety Division of the Community Development Department is responsible for protecting the public in the building environment. The Division monitors and enforces State and Town laws and regulations concerning the safety of buildings and structures built and maintained within the Town limits. Activities include intake and routing plans to Town divisions and departments, plan checking those plans for engineering and code compliance, coordinating comments for Town departments, issuing permits, answering code questions, and inspecting new and existing buildings and structures within the jurisdiction.

Permit activity over the last ten years has averaged approximately 300 new dwelling units each year. It is anticipated that residential construction activity will be approximately 150 units this coming fiscal year. Permit fees will be evaluated in late summer/early fall and a recommendation for adjustment may be made.

During FY 08/09, operating costs of the Department will be evaluated in conjunction with the analysis of permit activity and necessary changes will be addressed at that time. Staffing levels will be reviewed based on summer building activity levels to determine if further adjustments are necessary.

PUBLIC SAFETY - ANIMAL SERVICES**

ACTIVITY DESCRIPTION

The function of the Animal Services Department is to plan, supervise, coordinate, and participate in the enforcement of State and Town ordinances governing the keeping of domestic animals within the Town of Truckee. Activities include operation of a temporary animal shelter, a licensing program and vaccination clinics, as well as administration of the Abandoned Vehicle Abatement program, which provides for the removal of abandoned, wrecked or inoperable vehicles within Town limits. Animal Services are also provided through contract to Nevada County. The Animal Services Manager is also responsible for the administration of the Code Compliance Department. Animal Services is currently managed as part of the Community Development Department.

2008/09 activities are anticipated to include continued planning for the permanent Community Animal Shelter facility, continued employee training related to customer service, safety, and training related to the current status on all laws, regulations, and procedures. A Community Spay/Neuter Program, which is administered along with the Humane Society of Truckee-Tahoe, will also be continued this year. The program offers low and no cost spaying and neutering to qualifying families within the Town. Other activities include an annual public event and education programs in conjunction with the Humane Society and a low cost vaccination clinic. Contract services are anticipated to continue with Nevada County.

PUBLIC SAFETY - CODE COMPLIANCE**

ACTIVITY DESCRIPTION

The function of the Code Compliance Department is to plan, supervise, coordinate, and participate in the enforcement of State and Town ordinances governing building and land use in the Town of Truckee. Activities include but are not limited to coordinating with Town departments on enforcement issues, abatement of nuisance situations, permitting of temporary signs, coordination of special event permitting. 2008/09 activities are anticipated to include implementation of the Code Compliance module for Permits Plus and a complete rewrite of the department policy and procedure manual. The Animal Services Manager is responsible for the administration of the Code Compliance Department. Code Compliance is currently managed as part of the Community Development Department. The Building and Safety Department funds half of the operation costs.

2008/09 ANNUAL BUDGET DETAIL
PUBLIC TRANSIT**

ACTIVITY DESCRIPTION

This budget reflects expenditures for the transit programs that currently operate in the Town. These programs are funded from specific designated funds outside the General Fund. Sources of revenue are listed and described in the revenue section. Service includes full year Elderly and Disabled Dial-a-Ride Service, Tahoe Area Regional Transit (TART) Service, operated by Placer County, winter service and fixed route service. It is anticipated that TART will operate a route from Kings Beach to Truckee again in winter 2009. The Town will contribute funding to TART for this route but will not be operating the route. This budget includes funding for the transit vehicles to maintained by the Town's Fleet Maintenance Division.

**TOWN OF TRUCKEE
2008/09 ANNUAL BUDGET DETAIL
REDEVELOPMENT AGENCY - CAPITAL**

ACTIVITY DESCRIPTION

The Truckee Redevelopment Agency (RDA) has been created as an economic development tool for the Town of Truckee. Since the Town is incurring costs related to redevelopment purposes, the Administrative Services Department is tracking those costs as debt to be reimbursed to the Town General Fund as RDA funds are received. The Agency purpose is defined in the Town's Redevelopment Plan.

The primary goal for 2008/09 is to plan and implement several programs/projects in the Truckee Redevelopment Project Area that help to eliminate blight and result in the creation of affordable housing and/or economic development opportunities. Priority programs/projects (in no particular order) include: planning for development of the Downtown Railyard Master Plan site, implementation of the Downtown River Revitalization Strategy, continued pre-development activities for the former County Corp Yard Site (West River Site), planning/implementation of various capital improvements and programs/projects in historic Downtown Truckee, and partnering with developers and other organizations to plan/produce affordable housing programs/projects. The Town will loan funds to the Agency from the General Fund to continue program/project implementation until cash flow of tax increment (and other funding sources) and/or revenues from issuance of a tax allocation bond is sufficient to sustain Redevelopment Agency operations.

California State Department of Housing and Urban Development

00-CalHome-023 - CalHome grant awarded June 22, 2001 for rehab loans, total amount encumbered was \$500,000. Rehab loans are zero interest with payments deferred 15 years and transfer of ownership or other criteria as outlined in the grant document. Three rehab loans are outstanding at 6/30/08.

06-CalHome-183 - CalHome grant funded by State Prop 1C was awarded October 23, 2007 for down payment assistance and rehab loans, total amount encumbered was \$600,000. Rehab loans are 3% simple interest with payments and interest deferred 15 years. Down payment assistance loans are 3% simple interest with payments and interest deferred 30 years. Transfer of ownership or other criteria as outlined in the grant document.

05-BEGIN-047 - California Department of Housing and Community Development agreement for low/mod housing down payment assistance. Maximum grant commitment is \$330,000. Allows for down payment assistance in the Stone Ridge housing project in the amount of \$30,000 per unit. Expect eight units will receive \$30,000 each in down payment assistance in fiscal 2008/2009.

05-BEGIN-051 - California Department of Housing and Community Development agreement for low/mod housing down payment assistance. Maximum grant commitment is \$900,000. Allows for down payment assistance in the Spring Creek housing project in the amount of \$30,000 per unit. If units are sold at market, the developer is required to split the additional revenue with the Town 50/50; a minimum of \$15,000 contribution is to be paid for each unit sold at market. These funds will then be available for other down payment assistance programs. In fiscal 2007/2008 \$75,000 was disencumbered and returned to BEGIN due to limited acceptance by low/mod qualified applicants. Projecting that two (2) low/mod housing unit loans at \$30,000 each will be provided in fiscal 2008/2009.

Other Down Payment Moderate Housing Assistance

Boulders Moderate Housing - The developers of the Boulders, Deerfield Truckee Associates, LLC have an agreement for down payment assistance in the form of a "Community Second" loan. Currently nine zero interest \$30,000 loans are outstanding; payment is deferred 30 years or if ownership changes as outlined in the Promissory Note. When a unit is sold at market rate the developer pays the Town \$36,000. These funds are held in a Deferred Revenue account until such time as they can be used for down payment assistance for another project. Qualifying low/mod income purchasers in the Spring Creek project can receive \$10,000. \$200,000 is budgeted for a Critical Town Employee Down Payment Assistance program which will be developed and brought to Council in fiscal 2008/2009.

TOWN OF TRUCKEE
2008/09 ANNUAL BUDGET DETAIL
SOLID WASTE

ACTIVITY DESCRIPTION

The Town will continue to provide solid waste services through a franchise agreement with the contract solid waste hauler. The Solid Waste Fund is balanced.

Goals for this year include the continued development and expansion of community recycling programs, including priority areas such as pilot green waste curbside collection program, multi-family recycling, universal waste and hazardous waste outreach, and continued public education and outreach efforts.

Actual annual cost for solid waste services per single family residential parcel is \$ 173.78. This amount provides for all of the residential solid waste and recycling services funded through the Solid Waste Fund to be fully supported by the Solid Waste Fund, with no support from the General Fund.

CAPITAL IMPROVEMENT PROJECT

60-xx-02

PROJECT NAME: Annual Paving and Drainage Project

RESPONSIBLE DEPARTMENT: Public Works - Engineering

PROJECT DESCRIPTION: Annual overlay of selected roads based on Pavement Maintenance Program (PMP). Includes miscellaneous "A" berm and roadway associated drainage as well as a short-term repair on West River Street until reconstruction and widening project can be implemented. *NOTE: Update of PMP may result in modifications to this schedule. ***

REASON FOR/BENEFITS OF PROJECT: Road system needs periodic treatment to seal surfaces and increase structure.

OPERATIONAL COST IMPACTS: Reduced operational costs as a result of improved drainage and pavement surfaces.

RESPONSIBLE DEPARTMENT: Public Works - Engineering

PROJECT DESCRIPTION: Upgrades along South Shore Drive to minimize flood risk and minimize water quality degradation created by roadway runoff. Project currently inactive due to other workload priorities. This is a placeholder for partnerships.

REASON FOR/BENEFITS OF PROJECT: Improves drainage on Town maintained roads.

OPERATIONAL COST IMPACTS: Reduced operational costs as a result of improved drainage and reduced liability exposure.

PROJECT NAME: Document Imaging

RESPONSIBLE DEPARTMENT: Town Clerk

PROJECT DESCRIPTION: Continued expansion of the Town Digital Document Imaging System (DDIS). The DDIS is used 1) to facilitate desk top retrieval of Town documents; 2) as inexpensive distribution of records requested by the public via email; and 3) to facilitate a one-step process for storing permanent records and publishing them to the website. The Building Records portion of the CIP is to transfer of documents from microfiche to the digital system through a contract service. FY08/09 also includes \$5,000 for the imaging of personnel records due to an extended records retention policy. The remaining funding is a placeholder based on the current Records Retention Schedule, which will be updated in the near future. Fiscal Year 2010/2011 includes anticipated software and hardware upgrade for DDIS system.

REASON FOR/BENEFITS OF PROJECT: Reduction of paper storage, provide for efficient record retrieval and improved customer service.

PROJECT NAME: Prepayment of Union Pacific Railroad Property Leases in the Downtown Area

RESPONSIBLE DEPARTMENT: Redevelopment Agency

PROJECT DESCRIPTION: Acquire long term master leases (and renegotiate current leases) for key property in the Downtown area owned by Union Pacific Railroad including property in Brickelltown and on Donner Pass Road.

REASON FOR/BENEFITS OF PROJECT: Ensure the economic vitality of the Downtown area by solidifying parking as a means to increase pedestrian access and enhance building and business improvements.

OPERATIONAL COST IMPACTS: Prepayment of a long term lease is more cost effective than paying a monthly lease, as Union Pacific will significantly reduce the lease rate. The Redevelopment Agency will pay for the initial up front lease costs but will charge off the cost over time to the Parking District at a reduced rate than is currently being paid on existing leases, thereby reducing costs to the Parking District.
