INDEPENDENT AUDITOR'S REPORT

To the Governing Board
Redevelopment Agency of the Town of Truckee
Truckee, California

We have audited the accompanying financial statements of the governmental activities and each major fund of the Redevelopment Agency of the Town of Truckee (Agency) (a redevelopment agency formed under the laws of the State of California) and a component unit of the Town of Truckee, Truckee, California, as of and for the year ended June 30, 2009, which collectively comprise the Agency's basic financial statements, as listed in the table of contents. These component unit financial statements are the responsibility of the Agency's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the component unit financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall component unit financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the Agency as of June 30, 2009, and the respective changes in financial position thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with Government Auditing Standards, we have also issued our report dated December 2, 2009, on our consideration of the Agency's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

The Management's Discussion and Analysis and the Budgetary Comparison Schedule as listed in the table of contents, are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

MANAGEMENT'S DISCUSSION AND ANALYSIS

JUNE 30, 2009

As management of the Town of Truckee Redevelopment Agency (Agency), we offer readers of the Agency's financial statements this narrative overview and analysis of the financial activities of the Agency for the fiscal year ended June 30, 2009.

FINANCIAL HIGHLIGHTS

The assets of the Agency exceeded its liabilities, at the close of the fiscal year ended June 30, 2009, by \$3,158,658.

The Agency's total net assets increased by \$662,212. This increase is primarily attributable to the increase in tax increment received from Nevada County and the fact that the total revenues continue to exceed agency expenditures.

As of June 30, 2009, the Agency's governmental funds reported combined ending fund balances of \$2,899,277 an increase of \$391,659 in comparison with the prior year. The increase is again primarily attributable to the increase in tax increment received from Nevada County as well as the fact that revenues continue to be higher than expenditures.

The Agency's total liabilities decreased by \$351,079 during the current fiscal year. The decrease was attributable to a payment made against the Town of Truckee's General Fund advance to the agency, offset by a small increase in payables at year end.

The Agency did not issue any down payment assistance loans in fiscal year 2009. The Agency contributed to the Frishman Hollow infrastructure, Brickeltown Interim Sidewalk, planning for the Brickletown Streetscape Project, Bridge Street Railroad Crossing, Nevada County West River Street Former Corporation Yard Clean-up, Downtown Newsrack Replacement, Economic Development Strategy and Trout Creek restoration capital improvement projects. The Agency also purchased the capital assets of the Town's parking district.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the Agency's basic financial statements, which are comprised of three components: 1) Government-Wide Financial Statements, 2) Fund Financial Statements, and 3) Notes to the Financial Statements. This report also contains Required Supplementary Information in addition to the basic financial statements themselves.

GOVERNMENT-WIDE STATEMENTS

The government-wide financial statements are designed to provide readers with a broad overview of the Agency's finances, in a manner similar to a private-sector business.

The Statement of Net Assets presents information on all of the Agency's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the Agency is improving or deteriorating.

REDEVELOPMENT AGENCY OF THE TOWN OF TRUCKEE
(A Component Unit of the Town of Truckee, California)

MANAGEMENT'S DISCUSSION AND ANALYSIS

JUNE 30, 2009

The Statement of Activities presents information showing how the government's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g. uncollected taxes).

The government-wide financial statements distinguish functions of the Agency that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the Agency include administrative costs, capital projects and interest on long-term debt. The Agency does not have business-type activities.

The government-wide financial statements can be found on pages 13-14 of this report.

FUND FINANCIAL STATEMENTS

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Agency, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Agency are classified as governmental funds.

Governmental Funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental funds financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions.

The Agency maintains two (2) individual governmental funds. Information is presented separately in the Governmental Funds Balance Sheet and in the Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances for each fund. All funds of the Agency are considered to be major funds.

The Agency adopts an annual appropriated budget for each of its governmental funds. A budgetary comparison statement has been provided for the major special revenue fund to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 17-20 of this report.

MANAGEMENT'S DISCUSSION AND ANALYSIS

JUNE 30, 2009

Governmental Activities. Governmental activities increased the Agency's net assets by \$662,212 primarily as a result of receiving tax increment from Nevada County and not spending all of that increment on operating activities during the year.

	Activities		Change
	June 30, 2008	June 30, 2009	
General Revenues:			
Property taxes, RDA tax increment	\$ 1,563,348	\$ 1,733,906	11%

Increase (decrease) in net assets	858,746	662,212	-23%
Net assets - beginning of year	1,637,700	2,496,446	52%
Net assets - end of year	<u>\$ 2,496,446</u>	<u>\$ 3,158,658</u>	

As of the end of the current fiscal year, the Agency's net assets of \$3,158,658 reflect an increase of \$662,212 in comparison with the prior year. There is \$1,334,232 of ending fund balance restricted for Community Development to be used for low and moderate-income housing in the Housing Set-Aside fund. Transfers to the Town increased 123% compared with 2008 due to a higher level of capital projects in the current year.

FINANCIAL ANALYSIS OF THE REDEVELOPMENT AGENCY FUNDS

As noted earlier, the Agency uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds. All of the Agency's governmental funds ended the year with positive fund balances. The ending fund balance for all funds is \$2,899,277. Of the total fund balance, \$200,000 is reserved for resale of land, and \$11,859 is reserved for loans receivable. \$2,687,418 or 92.6% is unreserved, which is available for spending at the Agency's discretion, within the limitations of the fund's purpose.

Total governmental revenues exceeded expenses by \$391,659 primarily as a result of budgetary savings in professional services and lower than budgeted capital costs. Capital costs included the purchase of the majority of assets from the Town of Truckee Parking District in order to maintain the availability of parking in the downtown core.

MANAGEMENT'S DISCUSSION AND ANALYSIS

JUNE 30, 2009

BUDGETARY HIGHLIGHTS

There was a positive budget variance of \$130,091 for taxes and assessments in the final budget which was estimated based on tax increment revenue received from Nevada County. There was also a budget variance in interest income of \$15,233 which is attributable to higher than anticipated monies invested through the year.

DEBT ADMINISTRATION

At the end of the current fiscal year, the Agency had total advances from the Town of Truckee outstanding of \$5,004,418.

	Agency Outstanding Debt		
	<u>June 30, 2008</u>	<u>June 30, 2009</u>	<u>Change</u>
Advances from Town of Truckee General Fund	<u>\$ 5,415,263</u>	<u>\$ 5,004,418</u>	-8%

The Agency's total advance from the Town of Truckee decreased by \$410,845 during the current fiscal year as a result of a payment by the Agency on advances from the Town's general fund. During the 2009 fiscal year the Agency recognized \$23,280 in compensated absences liability. Additional information on the Agency's advance payable can be found in note 2 on page 29 of this report.

ECONOMIC FACTORS AND NEXT YEARS BUDGETS AND RATES

Local property value increases have slowed down in both fiscal year 2008 and fiscal 2009; Agency property tax increment (approximately 85.4 percent of Agency-wide revenues) is expected to be somewhat affected by fluctuations in the economy.

Investment interest rates decreased from an average of 3.3% to an average of 2.6% during fiscal year 2008-2009.

Both of these factors were considered in preparing the Agency's budget for the fiscal year 2009-2010.

CONTACTING THE AGENCY'S FINANCIAL MANAGEMENT

This financial report is designed to provide a general overview of the financial position of the Agency for all those with an interest in the government's finances. (A Component Unit of the Town of Truckee, California)
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2009

NOTE 1: FINANCIAL REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The Redevelopment Agency of the Town of Truckee was established on October 15, 1998 pursuant to the Community Redevelopment Law of the California Health and Safety Code. The primary purpose of the Agency is to eliminate blight areas by encouraging development of residential, commercial, industrial, recreational and public facilities. The accounting methods and procedures adopted by the Agency conform to generally accepted accounting principles as applied to governmental entities.

The Agency is considered to be a component unit of the Town of Truckee. These entities are legally separate from each other. However, the Town elected officials have a continuing full or partial oversight responsibility over and accountability for fiscal matters of the Agency. The criteria used to determine the scope of the reporting entity for financial reporting purposes are (1) exercise of oversight responsibility over such agencies by the governmental units elected officials, (2) selection of governing authority, (3) designation of management, (4) ability to significantly influence operations, and (5) accountability for fiscal matters.

Based on the application of these criteria, the Truckee Redevelopment Agency is presented as a blended component unit within the Town of Truckee's financial statements.

B. Basis of Presentation

Government-Wide Financial Statements

The statement of net assets and statement of activities display information about the Agency. These statements include the financial activities of the overall government. Eliminations have been made to minimize the double counting of internal activities. These statements distinguish between the governmental and business-type activities. All activity of the Agency is reflected as a governmental type activity. Governmental activities, which are normally supported by taxes and inter-governmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees charged to external parties.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the Agency's governmental activities. Direct expenses are those that are specifically associated with a program or function and; therefore, are clearly identifiable to a particular function. Program revenues include 1) charges paid by the recipients of goods and services offered by the program and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented instead as general revenues.

Fund Financial Statements

Fund financial statements of the reporting entity are organized into funds, each of which is considered to be separate accounting entities. Each fund is accounted for by providing a separate set of self-balancing accounts that constitute its assets, liabilities, fund equity, revenues, and expenditures. Funds are organized into three major categories: governmental, proprietary, and fiduciary. An emphasis is placed on major funds within the governmental category. A fund is considered major if it is the primary operating fund of the Agency or meets the following criteria:

- Total assets, liabilities, revenues or expenditures/expenses of that individual governmental or enterprise fund are at least 10 percent of the corresponding total for all funds of that category or type; and
- Total assets, liabilities, revenues or expenditures/expenses of the individual governmental fund or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined.

The Agency reports the following major governmental funds:

- The Redevelopment Housing Fund is a special revenue fund used to account for monies set aside for low and moderate income housing redevelopment.

NOTE 1: FINANCIAL REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

- The Redevelopment Capital Projects fund is a capital projects fund used to account for financial resources used for the acquisition or construction of major capital facilities.

The Agency does not report any major proprietary funds.

C. Basis of Accounting and Measurement Focus

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the Agency gives (or receives) value without directly receiving (or giving) equal value in exchange, include property and sales tax, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenues from grants, entitlements, and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. Property taxes, interest, certain state and federal grants, and charges for services are accrued when their receipt occurs within sixty days after the end of the accounting period so as to be both measurable and available. Expenditures are generally recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures as well as expenditures related to claims and judgments are recorded only when payment is due. General capital assets acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and capital leases are reported as other financing sources.

D. Cash and Investments

The Agency pools cash and investments of all funds, with cash and investments of the Town of Truckee. Each fund's share in this pool is displayed in the accompanying financial statements as cash and investments. State statutes authorize the Town to invest its cash surplus in obligations of the U.S. Treasury, agencies and instrumentalities, corporate bonds, medium term notes, bankers' acceptances, certificates of deposit, commercial paper, repurchase agreements, and the State of California Local Agency Investment Fund. Investment income from pooled investments is allocated to all funds in the pool. Interest is allocated on the basis of average month end cash balance amounts for each fund as a percentage of the total balance. Income from non-pooled investments is recorded based on the specific investments held by the fund. The interest income is recorded in the fund that earned the interest.

Investments are reported in the accompanying balance sheet at fair value which is determined using selected bases. Short term investments are reported at cost, which approximates fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Cash deposits are reported at carrying amount which reasonably estimates fair value. Managed funds not listed on an established market are reported at the estimated fair value as determined by the respective fund managers based on quoted sales prices of the underlying securities.

Participant's equity in the investment pool is determined by the dollar amount of participant deposits, adjusted for withdrawals and distributed investment income. Investment income is determined on an amortized cost basis. Amortized premiums and accreted discounts, accrued interest, and realized gains and losses, net of expenses, are apportioned to pool participants every quarter. This method differs from the fair value method used to value investments in these financial statements as unrealized gains or losses are not apportioned to pool participants. During the fiscal year ended June 30, 2009, the Truckee Town Council has not entered into any legally binding guarantees to support the participant equity in the investment pool.

E. Receivables

In the government-wide financial statements, receivables consist of all revenues earned at year-end and not yet received. Allowances for uncollectible accounts receivable are based upon historical trends and the periodic aging of accounts receivable. Major receivable balances for the governmental activities include taxes, grants, and interest.

(A Component Unit of the Town of Truckee, California)
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2009

NOTE 1: FINANCIAL REPORTING ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

In the fund financial statements, material receivables in governmental funds include revenue accruals such as interest and other similar intergovernmental revenues since they are usually both measurable and available. Nonexchange transactions collectible but not available are deferred in the fund financial statements in accordance with modified accrual, but not deferred in the government-wide financial statements in accordance with the accrual basis. Interest and investment earnings are recorded when earned only if paid within 60 days since they would be considered both measurable and available.

F. Inventory

All inventory items and supplies are recorded as expenditures when purchased. The amount on hand at June 30, 2009 was not considered material.

G. Loans Receivable

For the purpose of the fund financial statements, governmental fund expenditures relating to long-term loans receivable arising from mortgage subsidy programs are charged to operations at the time of funding. The portion of the loans receivable balance that includes long term loans that are being amortized and retired has been offset with a reserve for loans receivable in fund equity. The portion of the loans receivable balance that includes loans for which repayment is deferred or for which repayment may be forgiven if certain terms and conditions of the loans are met has been offset by unearned revenue.

H. Land held for Resale

The Town's Redevelopment Agency purchased land on West River Street from Nevada County during fiscal 2004 and 2005. The land required environmental hazard remediation prior to sale or use. Further clean up is required before the land will be sold or redeveloped.

I. Capital Assets

The accounting treatment over property, plant, and equipment (capital assets) depends on whether the assets are reported in the government-wide or fund financial statements.

Government-Wide Financial Statements

In the government-wide financial statements, property, plant and equipment are accounted for as capital assets. All capital assets are reported at historical cost, or estimated historical cost if actual is unavailable, except for donated capital assets which are recorded at their estimated fair value at the date of donation.

Depreciation of all exhaustible capital assets is recorded as an allocated expense in the Statement of Activities, with accumulated depreciation reflected in the statement of net assets. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation. The range of estimated useful lives by type of asset is as follows:

<u>Depreciable Asset</u>	<u>Estimated Lives</u>
Equipment	4-25 years
Structures and improvements	25-60 years
Infrastructure	25 years

Fund Financial Statements

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund at the time of acquisition.

J. Unearned Revenue

Unearned revenue is recorded for assets recognized in connection with a transaction before the earnings process is complete, those assets are offset by a corresponding liability for unearned revenue. In addition, loans receivable for which repayment is deferred or for which the balance may be forgiven if certain terms and conditions of the loans are met have also been offset by unearned revenue.

K. Long-Term Debt

All long-term debt to be repaid from governmental type resources are reported as liabilities in the government-wide statements. The long-term debt consists of compensated absences payable and advances from the Town of Truckee.

Long-term debt for governmental funds is generally not reported as liabilities in the fund financial statements. The debt proceeds are reported as other financing sources and payment of principal and interest reported as expenditures. However, since the Agency is a component unit of the Town of Truckee, the advances from the Town of Truckee are reflected in the fund financial statements.

L. Compensated Absences

The Agency's policy regarding compensated absences is to permit employees to accumulate a limited amount of earned but unused vacation leave, compensatory time, and sick time. The liability for these compensated absences is recorded as long-term debt in the government-wide statements. The current portion of this debt is estimated based on historical trends. In the governmental fund financial statements the expenditures and liabilities related to those obligations are recognized only when they mature. The Town includes its share of social security and medicare taxes payable on behalf of the employees in the accrual for compensated absences.

M. Net Assets/Fund Balances

Government-Wide Financial Statements

The government-wide financial statements utilize a net assets presentation. Net assets are categorized as invested in capital assets (net of related debt), restricted and unrestricted.

- Invested in capital assets, net of related debt - Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction or improvement of those assets.
- Restricted net assets - Consists of net assets with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- Unrestricted net assets - All other net assets that do not meet the definition of "restricted" or "invested in capital assets, net of related debt."

When both restricted and unrestricted net assets are available, unrestricted resources are depleted first before the restricted resources are used.

Fund Financial Statements

In the governmental fund financial statements, reserves and designations segregate portions of fund balance. Reservations of fund balance are for amounts that are not available or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance are established by action of management and represent tentative plans that are subject to change. The Agency had no designations at June 30, 2009.

The Agency's reserves at June 30, 2009, are comprised of the following:

Reserved for:		
Land held for resale	\$	200,000
Loans receivable		11,859
Total Reserved	\$	211,859

A description of reserves follows:

Reserved for land held for resale - to reflect the portion of assets which represents land held for resale which does not represent available spendable resources.

Reserved for loans receivable - to reflect the portion of assets which represent long term receivables which do not represent available spendable resources.

N. Taxes and Assessments

The Agency is funded primarily by allocated tax increment revenues. Information on property tax levy, collection and maximum rates is contained in the Town of Truckee financial statements.

O. Expenditures/Expenses

In the government-wide financial statements, expenses are classified by function. In the fund financial statements, expenditures are classified as follows:

- Government Funds - By Character
 - Current (further classified by function)
 - Debt Service
 - Capital Outlay

P. Interfund Transactions

Interfund transactions are reflected as either loans, services provided or used, reimbursements or transfers.

Loans reported as receivables and payables are referred to as either "due to/from other funds" (i.e. the current portion of interfund loans) or "advances to/from other funds" (i.e., the noncurrent portion of interfund loans) as appropriate and are subject to elimination upon consolidation. Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not available financial resources.

Services provided or used, deemed to be at market or near market rates, are treated as revenues and expenditures or expenses.

Reimbursements occur when the funds responsible for particular expenditures or expenses repay the funds that initially paid for them. Such reimbursements are treated as an adjustment to expenditures or expenses; that is, a corresponding increase in expenditures or expenses in the reimbursing fund and a corresponding decrease in expenditures or expenses in the reimbursed fund.

All other interfund transactions are treated as transfers. Transfers between funds are netted as part of the reconciliation to the government-wide presentation.

Q. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTE 2: DETAILED NOTES

A. Cash and Investments

The Agency follows the practice of pooling all cash and investments with the Town of Truckee. Complete disclosure of Town of Truckee investment policies can be found in the Town annual audited financial statements.

Total Agency cash and investments are as follows:

Investments:

In Town's pool	7,928,418
Total Investments	\$ 7,928,418

Interest Rate Risk

Interest rate risk is the risk of loss due to the fair value of an investment falling due to interest rates rising. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. All investments of the Agency are pooled with the Town of Truckee investment pool. The Agency does not have a formal investment policy that further limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk

Credit risk is generally the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. State law and Town investment pool policy limit investments in commercial paper to the rating of A1 by Standards & Poor's or P-1 by Moody's Investors Service. The Agency has no investment policy that would further limit its investment choices.

Custodial Credit Risk

At year end, neither the Agency nor Town participated in any repurchase agreements or securities lending that would result in any possible risk in this area.

Concentration of Credit Risk

When investments are concentrated in one issuer, this concentration presents a heightened risk of potential loss. The Agency has invested all cash, in the Town investment pool which contains a diversification of investments.

C. Transfers

During the year ended June 30, 2009, the following transfers were made:

Transfers from the Town of Truckee/HOME

Capital Projects	\$	1,652
		1,652
Total Transfers from the Town of Truckee/HOME	\$	1,652

Transfers to Town of Truckee

Redevelopment Housing	\$	20,000
Capital Projects		599,053
		619,053
Total Transfers to the Town of Truckee	\$	619,053

Transfers in were made from HOME Grant monies received during FY08/09 for Agency staff time. Transfers to the Town of Truckee were made for capital projects, facility impact fees, and the pass through to the Town of Truckee General Fund.

D. Construction Commitments

The Agency has signed agreements for \$3,662 in one construction project that was not complete as of June 30, 2009. Construction completed and paid subsequent to June 30, 2009 on this project was \$1,272. The Agency has also signed agreements for construction projects subsequent to June 30, 2009 in the amount of \$373,233 of which \$72,432 was constructed and paid by the date of financial statement preparation.

FOR THE YEAR ENDED JUNE 30, 2009

BUDGETARY BASIS OF ACCOUNTING

The budget for the Agency is adopted with the Town of Truckee budget. The Town of Truckee follows these procedures annually in establishing the budgetary data reflected in the financial statements:

- (1) The Town Administrator submits to the Town Council a proposed draft budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing them.
- (2) The Town Council reviews the proposed budget at regularly scheduled meetings, which are open to the public. The Council also conducts a public hearing on the proposed budget to obtain comments from interested persons.
- (3) Prior to July 1, the budget is adopted through the passage of a resolution.
- (4) From the effective date of the budget, which is adopted and controlled at the department level, the amounts stated therein, as proposed expenditures become appropriations to the various Town departments. The Town Council may amend the budget by motion during the fiscal year. The Town Administrator may authorize transfers from one object or purpose to another within the same department.

Formal budgetary integration is employed as a management control device during the year. The Town presents a comparison of annual budgets to actual results for the Redevelopment Housing Fund. The amounts reported on the budgetary basis are generally on a basis consistent with accounting principles generally accepted in the United States of America (GAAP). For the year ended June 30, 2009, the Redevelopment Housing fund had expenditures less than appropriations in the amount of \$75,011.

OTHER REPORTS AND SCHEDULES

This page intentionally left blank.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND
OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

To the Governing Board
Redevelopment Agency of the Town of Truckee
Truckee, California

We have audited the financial statements of the governmental activities and each major fund of the Redevelopment Agency of the Town of Truckee (Agency)(a redevelopment agency formed under the laws of the State of California) and a component unit of the Town of Truckee, Truckee, California as of and for the year ended June 30, 2009, which collectively comprise the Agency's basic financial statements, and have issued our report thereon dated December 2, 2009. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Agency's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Agency's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Agency's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the Agency's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the Agency's financial statements that is more than inconsequential will not be prevented or detected by the Agency's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the Agency's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Agency's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statements amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

We also performed the procedures contained in the publication entitled "Guidelines for Compliance Audits of California Redevelopment Agencies" dated November 1998, promulgated by the California State Controller, Division of Local Government Fiscal Affairs, in connection with a review of the Agency's compliance with laws, regulations, and administrative requirements governing activities of the Agency, as required by the Health and Safety Code of the State of California.

To the Governing Board
Redevelopment Agency of the Town of Truckee
Truckee, California

This report is intended solely for the information and use of management, others within the organization, Governing Board, and the State Controller's Office and is not intended and should not be used by anyone other than these specified parties.
